

Continually Dispersing Fresh Fragrance

Application

For use in areas where an unpleasant odor exists or occurs when the area is used. It is particularly effective in restrooms to combat urine and fecal odors from the normal use of toilets & urinals.

Dispenser Construction

Polypropylene Backplate & ABS white or chrome cover, the Wiseair dispenser is attractive, strong and made to resist vandalism with a secure locking system.

Dispenser Operation

A 1.5 volt battery powered motor operates a fan that works 24 hours a day circulating the Wiseair dry fragrance throughout the area as shown below.

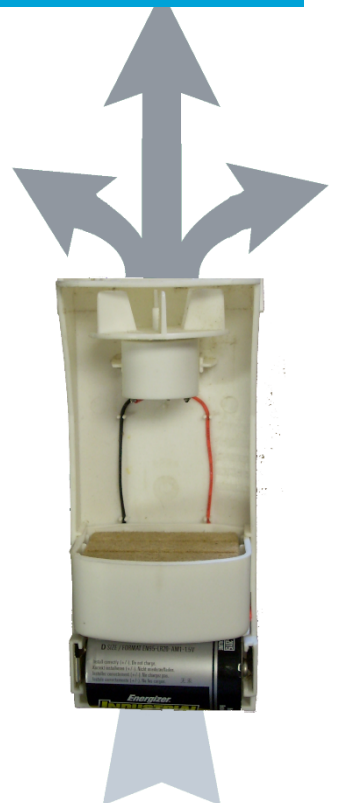

WORKS 24 HOURS

KILLS ODORS

SAVES MONEY

Wiseair Air Freshener Cartridges

The polypropylene cartridges hold a special absorbent material that hold the air freshener fluid without any evidence of the presence of liquid. This dry material releases a fragrance evenly into the dispenser and is distributed by the fan throughout the area where it is installed.
