

RESTROOM PRODUCTS

The Odo-San Drip is the newest addition to our drip systems. The OdoSan for toilets/urinals automatically & continually dispenses our specially formulated OdoSan *“Odoff” odor neutralizer to attack and eliminate foul odors at the source*, as well as *chelants for descaling, & detergents for cleaning*. Designed to be smaller & more compact, the Odo-San has a more upscale appearance. Developed to meet the needs of public facilities such as hospitals, hotels, restaurants, and office buildings.

Product Name: OdoSan Drip Unit

24/case

(comes with installation kit, bottle & cap)

Available in Chrome or White

Product Use & Description

- Eliminates odors, cleans, & descales toilets/urinals
- Contains **Odoff**, a powerful odor neutralizing solution for ammonia & sulfur compounds
- Reduces formation of biofilms
- Can be installed directly into fixture or in-line into the piping
- Chelating agent prevents hard water scale building & removes existing scale
- Made of tough, flexible, easy to clean polypropylene
- Long lasting, trouble free dispenser can be used for years
- Simplicity of design & function - no batteries or electricity required
