

# AeroFresh Ultra Protection URINAL MAT

AeroWest's disposable, hygienic urinal mats protect your restroom floors, while helping prevent slips and falls.

**Superior floor protection, cost-effective, ultra absorption and exceptional durability. Leaves NO sticky residue!**

- The heavy-duty plastic grid top prevents urine from transferring to the bottom of shoes, keeping restroom and building floors clean, and reducing the chances of slip-and-fall accidents.
- Urine droplets on the mat immediately absorb into the anti-microbial treated core
- Uric acid and salts, along with other picked up debris, remain trapped in the absorbent core
- Mop-over matting—clean the floors more easily by not having to remove matting
- Water from the urine quickly evaporates from the rapid-dry core, preventing water-logged matting and extending the life of the mat
- Neutralizes odor-causing elements
- The anti-microbial core decreases bacterial & fungal growth
- The black core hides all unsightly stains
