

Safety Data Sheet

1. Identification

Product identifier	Wiseair Odoff	
Recommended use	Fragrance	
Recommended restrictions	None Known	
Manufacturer Name	West Sanitation Services, Inc. Dba Aerowest International	
Address	2158 Beaumont Dr Baton Rouge, LA 70806	
Telephone	General Assistance	225-302-5570
Emergency phone number	CHEMTREC:	800-424-9300

2. Hazards Identification

GHS Classification:

Health

Acute Toxicity - Category 2(inhalation),
Category 2(oral/dermal)
Eye Corrosion - Category 2
Skin Corrosion - Category 1
Skin Sensitization - Category 0
Mutagenicity - None
Carcenogenicity - None
Reproductive/Development - None
Target Organ Toxicity (Repeated) - None

Environmental

Aquatic Toxicity -
Slightly toxic

Physical

Combustible Liquid
Category 3A

GHS Label:

Symbols: None

Hazard Statements

CAUTION!

Combustible Liquid and Vapor
If inhaled: May cause respiratory tract irritation
For skin and eyes: Prolonged contact may lead to irritation
Harmful if Swallowed and in contact with skin
Does not cause Lung Cancer

Precautionary Statements

Do not eat, drink, or use tobacco when using this product.
Restrict breathing of mist, or vapors
Keep container tightly closed
Keep away from heat and open flame
Store in tightly closed container in cool/well ventilated place.

Does not cause Birth Defects
Does not cause Genetic Defects
Slightly Toxic to Aquatic Life

Wash thoroughly after handling

3. Composition / Information on Ingredients

Component	CAS Number	Weight %
1 Odoff Deodorizing Fragrance	none	40-50%
2 Ethyl Alcohol	64-17-5	10-25%
3 Propylene Glycol Monomethyl Ether	107-98-2	10-20%

4. First Aid Measures

Eye: Not a normal entry method--product is considered a solid. Rinse eyes for 15 minutes until irritation stops

Skin: Flush with water until slipperiness is gone. Prolonged contact by sensitive individuals can cause drying or leathering or allergic dermatitis.

Inhalation: Immediately remove person to fresh air. Keep person calm, if not breathing, give artificial respiration. If not breathing, give oxygen.

Ingestion: Seek medical attention immediately. If person is conscious, give water to dilute stomach content and call a physician.

5. Fire Fighting Measures

Suitable Extinguishing Media: Water, Alcohol Foam, Carbon Dioxide, or Dry Chemical

Fire Fighting Procedures: Use normal firefighting equipment including a NIOSH approved self-contained breathing apparatus (SCBA). Use water to cool containers.

Unusual Fire and Explosion Hazards: Vapors may be heavier than air and travel along the ground to ignition sources or sumps.

Combustion Products: Carbon Monoxide, and Carbon Dioxide and oxides of Nitrogen

6: Accidental Release Measures

- Keep unnecessary personnel out of the spill and containment areas.
- Vapor Protective Clothing--not necessary. Vapors are not corrosive or dangerous.
- Do not flush to sewer or waterway

Personal Protection for Emergency Situations:

Evacuate the area of all unnecessary personnel.

Spill Mitigation Procedures

Air Release: Vapors may be suppressed by the use of water fog.

US regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of stipulated quantities (RQ). US Coast Guard National Response Center is 800-424-8802.

Water Release: This material is not soluble in water. Contain all liquid for treatment and/or disposal as a (potential) hazardous waste. If not contaminated with other chemicals, this can be disposed of in a landfill or municipal waste facility.

Land Release: Absorb spill, for disposal in a landfill. Decontaminate all clothing and the spill area using detergent and flush with large amounts of water; contain water for disposal in sanitary sewer.

Additional Spill Information:

Stop source of spill as soon as possible and notify appropriate personnel. Utilize emergency response personal protection equipment (PPE) prior to the start of any response. Evacuate all non-essential personnel. Dispose of spill residues per guidelines under Disposal Considerations.

7. Handling and Storage

Handling: Prevent spills by using containment dikes and plugging drains in a storage or dispensing area. Use chemical resistant gloves and eye protection to prevent exposure on handling. Do not take internally. Avoid contact with skin, eyes, and clothing. Avoid breathing vapor or mist. Electrically ground all equipment when handling this product.

Storage: Store product in original containers. Keep containers closed. Store in cool, well-ventilated areas. Keep away from oxidizers.

8. Exposure Controls / Personal Protection

Exposure limits:

1 Odoff Deodorizing Fragrance	none	40-50%
2 Ethyl Alcohol	64-17-5	10-25%
3 Propylene Glycol Monomethyl Ether	107-98-2	10-20%
Component 1: Odoff Deodorizing Fragrance		none listed
Component 2: Ethyl Alcohol		very high
Component 3: Propylene Glycol Monomethyl Ether		none listed

Engineering Controls: Local or mechanical ventilation recommended

Personal Protective Equipment (PPE):

Eye Protection: Chemical Splash Goggles or Face Shield

Skin Protection: Chemical gloves and apron. Nitrile Latex or neoprene recommended

Respiratory Protection: Use in well-ventilated area. Chemical cartridge respirators are not required except in enclosed spaces

9. Physical and Chemical Properties

Flashpoint:	180°F	Autoignition Temperature:	360°F
Boiling Point:	180°F	Melting Point:	0°F
Vapor Pressure:	unknown	Vapor Density:	>1
% Solubility:	10%	Pour Point:	20°F
Molecular Formula:	not applicable		
Odor and Appearance:	Sweet fragrance, brown pad		
Lower Explosive Limit (LEL):	3%	Upper Explosive Limit (UEL):	15% Specific
Gravity:	7.8 g/ml	% Volatile	80%
Evaporation Rate:	1.5	Viscosity	not applicable
Octanol/Water Partition:	Not applicable	pH	7.4
Molecular Weight:	unknown		

10. Stability and Reactivity

Stability/Incompatibility: Product is stable. Hazardous Polymerization will not occur. Avoid Strong Acids and Strong Oxidizing Agents.

Hazardous Reactions: Strong Acids or oxidizing agents can cause separation of fragrant oils, and increase fire hazard.

11. Toxicological Information

Signs and Symptoms of overexposure:

Acute Effects: Product can cause itching or burning to skin and eyes.

Eye Contact: Severe irritation, redness and swelling can occur with either contact with liquids.

Skin Contact: May cause reddening, or skin irritation

Inhalation: May cause irritation and pulmonary edema

Ingestion: May cause gastro-intestinal discomfort.

Target Organ Effects: May cause gastro-intestinal discomfort, irritation to respiratory tract.

Chronic Effects: None known. Those who are susceptible to allergic reactions may have some irritation on repeated contact.

Medical Conditions Aggravated: Individuals with damaged lungs from smoking or other health issues should not dispense (pour bottles) this product, due to possible pneumonia like reaction especially in closed spaces.

Acute Toxicity:

Oral LD50 (rat)	unknown mg/kg	
Dermal LD50(rabbit)	unknown mg/kg	
Inhalation LC50(rat)	unknown ppm	
IDLH	4 hour	8 hour

12. Ecological Information

LC₅₀ (Fathead Minnows) = unknown mg/L/96 hr.

EC₅₀ (Daphnia) = unknown mg/L/48 hr.

Bioaccumulation/Biodegradability : Bioaccumulation is not expected to be significant.
This product is readily Biodegradable.

13. Disposal Considerations

As sold, this product is not a hazardous waste and can be disposed of safely in any sewer or sanitary system. Flush down with plenty of water.

COMPLY WITH FEDERAL, STATE, AND LOCAL REGULATIONS

14. Transport Information

U.S. Department of Transportation (DOT)

Proper Shipping Name: Not DOT regulated

Hazard Class: None

UN/NA Number: None

Packing Group: None

Labels Required: None

International Maritime Organization (IMDG)

Proper Shipping Name: Not DOT Regulated

Hazard Class: None

UN/NA Number: None

Packing Group: None

Labels Required: None

15. Regulatory Information

U.S. Federal Regulations

CERCLA: There is no designated reportable quantity (RQ) for this chemical. If appropriate, immediately report spills to the National Response Center (800/424-8802) as required by federal law. Also contact appropriate state and local regulatory agencies.

Toxic Substances Control Act (TSCA): All components of this product are included on the TSCA inventory

Clean Water Act (CWA): No known components in this product are hazardous substances under the Clean Water Act. Consult Federal, State and local regulations for specific requirements.

CAA (CAA): No known components in this product are hazardous substances under the Clean Air Act. Consult Federal, State and local regulations for specific requirements.

SARA	Immediate:	No
	Delayed:	No
	Fire:	No
	Pressure:	No
	Reactivity:	No

This product contains the following toxic Chemicals:

Component	CAS number	Maximum
NONE	NONE	NONE

State Regulations

California: NONE

International Regulations

Canadian Environmental Protection Act: NONE

Canadian Workplace Hazardous Materials Info Systems WHMIS

Class: None

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.

EU Classification of Existing Chemicals (EINECS): All of the components of this product are included on EINECS.

EU Classification: F None H None T None N None

EU Risk R and Safety Phrases:

R36,38 Wear suitable clothing, gloves, and eye/face protection

S02 Keep out of reach of children

S24,25 Avoid contact with skin and eyes

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S36/37/39 Wear suitable clothing, gloves and eye/face protection

16. Other Information

National Fire Protection Association (NFPA) Ratings: This information is intended solely for the use of individuals trained in the NFPA system.

Health: 1

Flammability: 1

Reactivity: 0

Revision Indicator: New SDS Date 1/31/2024

Disclaimer: The information contained herein is accurate to the best of our knowledge. West Sanitation Services, Inc. makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other substances.
